Bank's Capital Adequacy Ratio stood at 22.32% well above the minimum requirement of 11.5% and Leverage Ratio at 5.13% against minimum requirement of 3% as on March 31, 2026.

ECONOMIC REVIEW

Pakistan's GDP posted a growth 3.89% in 2QFY26 building on the momentum from the first quarter on the back of strong performance of the Industrial (8MFY26 LSM Index up 6%YoY) and the Services sectors. Headline inflation during 9MFY26 averaged 5.64%YoY with the SBP policy rate at 10.5%.

On the external front, Pakistan remained comfortably placed as the 9MFY26 Current Account (CA) turned into a surplus of USD 8Mn, following a CA surplus of USD 1.1Bn in Mar'26. This was supported by a contained Trade Deficit, reduction in the Services Deficit and robust growth in Remittances despite pressures from the war in the Middle-East. Further, Pakistan's Foreign Exchange Reserves towards the end of Mar'26 were recorded at USD 21.8Bn, with the Rupee holding its ground against the Dollar, trading at PKR 279/USD levels.

The geopolitical developments linked to the US–Iran conflict have triggered significant volatility in global oil markets, exerting pressure on fuel prices and the external balances of oil-importing economies, including Pakistan. As global energy prices remain substantially elevated compared to pre-conflict levels, freight charges have surged due to disruptions related to the conflict. In addition, insurance premiums on trade and shipping have risen sharply, further increasing import costs. Consequently, there is a risk of second-round inflationary effects, where initial price increases spread across the broader economy.

Moreover, Pakistan & the IMF also reached staff level agreement for the next EFF tranche. Further, Pakistan successfully repaid USD 1.3Bn in Eurobonds in Apr'26, while also committing to repay USD 3.5Bn loan to the UAE. Elsewhere, the Kingdom of Saudi Arabia deposited USD 2Bn with the SBP and also assured of further financial support to Pakistan.

Additionally, Pakistan managed to post its first ever half-yearly Fiscal Surplus of PKR 542Bn (0.4% of GDP) during 1HFY26, along with a Primary Surplus of PKR 4.1Trn (3.2% of GDP). The surplus was primarily driven by the profits from SBP operations. Nevertheless, Public Debt levels remained elevated with high mark-up payments putting pressure on the Federal Government and the FBR facing a shortfall in tax collection.

PSX REVIEW

The KSE-100 Index posted a negative return of 15% during Jan-Mar'26 period, closing the quarter at 148,743 points. Market sentiment remained weak largely due to the start of US-Iran war and the ensuing hike in energy prices adding to uncertainty and expectations of increase in interest rates, launch of the T+1 settlement mechanism and continuing selling by foreign investors and local institutions.

Future performance of the KSE-100 index will mainly depend on Pakistan's macroeconomic performance as the country faces growing risks from rapidly evolving geopolitical conditions. The US-Iran war escalated with no clarity over a ceasefire. Meanwhile, the global commodity and equity markets are volatile and the hardest hit. Subsequently, Pakistan's macroeconomic indicators, being vulnerable to international oil prices due to import reliance, witnessed an 11.5% MoM decline in the KSE-100 Index, marking the highest monthly loss in the past six years. In particular, the spike in energy prices due to the Iran war is likely to drive domestic inflation and put pressure on the Current Account. Households and industries may also face energy shortages as major supply routes remain affected – this may impact GDP growth of the country.

Nevertheless, Pakistan's ongoing mediation efforts could bring about a lasting peace settlement between the US & Iran. This would bring stability to the region, reduce oil prices, remove uncertainty and open multiple avenues for Pakistan's economic progress as sanctions on Iran might be lifted. Together these factors would improve overall market sentiment.

SINDH MICROFINANCE BANK LIMITED (WHOLLY OWNED SUBSIDIARY)

Sindh Microfinance Bank Limited (SMFB) is a State Bank of Pakistan (SBP) licensed, national-level microfinance institution that commenced operations in May 2016 with an initial paid-up capital of PKR 750 million. As of March 31, 2026, the Bank's equity base has grown to PKR 1.68 billion entirely through internally generated profits. SMFB is distinguished as potentially the only microfinance bank in Pakistan to have maintained uninterrupted profitability since inception, spanning nearly a decade.

For the quarter ended March 31, 2026, SMFB reported a profit before tax of PKR 157 million, representing a robust 70% increase over PKR 92 million recorded in the corresponding quarter ended March 31, 2025. Profit after tax for the quarter stood at PKR 103 million compared to PKR 63 million in Q1 2025, reflecting a 64% year-on-year growth. This strong performance was driven by a 33% increase in net interest income, which rose to PKR 384 million from PKR 288 million in the prior year quarter.

SMFB's business model is firmly anchored in grassroots microfinance, with a strong focus on empowering women engaged in income-generating activities across rural and semi-urban areas. The Bank maintains an average loan size of approximately PKR 50,000 and continues to sustain one of the lowest delinquency rates in the microfinance sector at less than 1%. Since inception, SMFB has disbursed over 500,000 loans amounting to PKR 20.2 billion entirely to women in Sindh through a network of 117 business locations comprising 22 branches and 95 service centers, covering every district of the province.

The Bank's Capital Adequacy Ratio (CAR) stood at a robust 45.26% as of March 31, 2026 (December 2025: 44.74%), significantly exceeding the SBP's minimum regulatory requirement of 15% and placing SMFB among the best-capitalized microfinance banks in Pakistan. Total eligible capital stood at PKR 1,638 million against risk-weighted assets of PKR 3,619 million, underscoring the Bank's strong capital buffers for continued expansion.

The Pakistan Credit Rating Agency (PACRA) has reaffirmed SMFB's credit ratings at 'A' for the long term and 'A1' for the short term with a Stable outlook. VIS Credit Rating Company has also assigned SMFB identical ratings of 'A/A-1' with a Stable outlook making SMFB amongst the highest-rated microfinance banks in the country.

SMFB has maintained exemplary working standards, strong governance framework, and consistent performance over the years leading to securing a National Level License on February 10, 2026 from SBP, enabling Pan-Pakistan operations. The Bank plans phased organic expansion beginning with southern Punjab and Balochistan, progressively extending outreach to underserved communities across Pakistan.

During the preceding year, a new Chairman namely Syed Assad Ali Shah, Deputy CEO, Sindh Bank Limited was co-opted to the Board after his FPT clearance from SBP. His vast experience, strategic insight, and leadership acumen are expected to significantly strengthen governance oversight and accelerate SMFB's growth trajectory at the national level.

Furthermore, SBP, through BPRD Circular Letter No. 01 of 2025, dated January 22, 2025, has provided the following clarifications:

- a) Islamic Banking Institutions (IBIs) may continue to apply Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and maintain their existing accounting methodology for other Islamic products until further instructions are issued.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE QUARTER ENDED MARCH 31, 2026

15.1 The Bank has an aggregate amount of deferred tax assets of Rs. 14,883.84 million (2025: Rs. 13,954.99 million). Deferred tax asset has been recorded based on management's best estimate of the probable benefits expected to be realised in future years in the form of reduced tax liability as the Bank would be able to set off the profits earned in those years against the deferred tax asset. In this regard, the Bank has prepared financial projections for future taxable profits, which have been approved by the Board of the Bank, to assess the recoverability of deferred tax assets. The projections involve certain key management assumptions underlying the estimation of future taxable profits. The determination of future taxable profits is most sensitive to certain key assumptions such as growth in high yield consumer advances, investment returns, potential reversal of provision against assets, interest rates, cost of funds and expected recoveries of classified loans. Any significant change in such assumptions may have an effect on the recoverability of the deferred tax assets. Management believes that it is probable that the Bank will be able to achieve the profits and consequently, the deferred tax asset will be fully realised in future.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE QUARTER ENDED MARCH 31, 2026

36. FAIR VALUE MEASUREMENTS

The fair values of traded investments are based on quoted market prices.

Unquoted equity investments are carried at the lower of cost or break-up value of the investee company. The fair value of the same is not required to be calculated.

The fair value of unquoted debt securities, fixed term advances, fixed term deposits and borrowings, other assets and other liabilities, cannot be calculated with sufficient reliability due to the absence of a current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments and therefore, are not reported apart of this disclosure.

In the opinion of management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values, since they are either short-term in nature or, in the case of customer advances, deposits, and certain long-term borrowings, are frequently repriced.

All assets and liabilities for which fair value is measured or disclosed in these unconsolidated financial statements are categorized within the following fair value hierarchy, based on the lowest level input that is significant to the fair value measurement.

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: Fair value measurements using inputs that are not based on observable market data.

36.1 Fair value of financial and non-financial assets

The table below analyses the financial and non-financial assets carried at fair values, by valuation methods. For financial assets, the Bank essentially carries its investments in debt and equity securities at fair values. Valuation of investments is carried out as per guidelines specified by the SBP.

2. BASIS OF PRESENTATION

2.1 STATEMENT OF COMPLIANCE

2.1.1 These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard 34 "Interim Financial Reporting" and International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act 2017;

- Provisions of and directives issued under the Companies Act 2017, Banking Companies Ordinance, 1962 and the directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

In case requirements of Banking Companies Ordinance 1962, the Companies Act 2017 or the directives issued by SBP and SECP differ with the requirements of IFRS or IFAS, the requirements of the Banking Companies Ordinance, 1962, Companies Act 2017, and the directives issued by the SBP and SECP shall prevail.

- 2.1.2 SBP has deferred the implementation of International Accounting Standard (IAS) 40, 'Investment Property,' for banking companies in Pakistan through BSD Circular Letter No. 10, dated August 26, 2002, until further notice. Similarly, SECP has deferred the applicability of IFRS 7, 'Financial Instruments: Disclosures,' through its notification S.R.O 411 (I) / 2008, dated April 28, 2008. Consequently, the requirements of these standards have not been incorporated in the preparation of these consolidated condensed interim financial statements.

The disclosures in these consolidated condensed interim financial statements follow the format prescribed by SBP in BPRD Circular No. 02, dated February 9, 2023, with additional requirements introduced through BPRD Circular Letter No. 13 of 2024, dated July 1, 2024, and are in accordance with the applicable accounting and financial reporting standards in Pakistan.

- 2.1.3 The Group has received an extension from SBP until December 31, 2025, for the application of the Effective Interest Rate (EIR) method to all financial assets and liabilities, excluding staff and subsidized loans. However, since financial assets other than advances and financial liabilities were already effectively accounted for using EIR before the implementation of IFRS 9, this extension has been applied only to advances (excluding staff loans and subsidized loans, Consequently, advances are currently carried at cost, except for staff loans, , which are measured at amortized cost, net of expected credit loss allowances.

Furthermore, SBP, through BPRD Circular Letter No. 01 of 2025, dated January 22, 2025, has provided the following clarifications:

- a) Islamic Banking Institutions (IBIs) may continue to apply Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and maintain their existing accounting methodology for other Islamic products until further instructions are issued.
- b) The treatment of charity should align with existing SBP guidelines outlined in IBD Circular No. 02 of 2008 and must not be recognized as income.

2.1.4 Standards, interpretations and amendments to published approved accounting standards that are effective in the current year.

SBP Letter No. SBPHOK-BPRD-RPD-SNB-829493 dated January 22, 2025 to provide the extension for implementation of Effective Interest Rate (EIR) under IFRS-09 up to December 31, 2025. The Group has now fully implemented the effective interest rate (EIR) under IFRS-09 from January 01, 2026. The impact of opening equity has been recorded through statement of change in equity and the information presented of Dec. 31, 2025 and March 31, 2025 has not been restated.

The impact of EIR decreased the group's financial assets by Rs. 639.87 million and decreased the financial liabilities by Rs. 31.51 million resulting net decreased the group's equity by Rs. 321.83 million (net of tax) as at January 01, 2026.

2.1.5 Standards, interpretations of and amendments to published approved accounting standards that are not yet effective.

The following revised standards, amendment and interpretations with respect to the accounting and reporting standards would be effective from the dates mentioned below against the respective standards, amendment or interpretations:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE QUARTER ENDED MARCH 31, 2026

15.1 The Bank has an aggregate amount of deferred tax assets of Rs. 14,967.63 million (2025: Rs. 14,033.7 million). Deferred tax asset has been recorded based on management's best estimate of the probable benefits expected to be realised in future years in the form of reduced tax liability as the Bank would be able to set off the profits earned in those years against the deferred tax asset. In this regard, the Bank has prepared financial projections for future taxable profits, which have been approved by the Board of the Bank, to assess the recoverability of deferred tax assets. The projections involve certain key management assumptions underlying the estimation of future taxable profits. The determination of future taxable profits is most sensitive to certain key assumptions such as growth in high yield consumer advances, investment returns, potential reversal of provision against assets, interest rates, cost of funds and expected recoveries of classified loans. Any significant change in such assumptions may have an effect on the recoverability of the deferred tax assets. Management believes that it is probable that the Bank will be able to achieve the profits and consequently, the deferred tax asset will be fully realised in future.

36. FAIR VALUE MEASUREMENTS

The fair values of traded investments are based on quoted market prices.

Unquoted equity investments are carried at the lower of cost or break-up value of the investee company. The fair value of the same is not required to be calculated.

The fair value of unquoted debt securities, fixed term advances, fixed term deposits and borrowings, other assets and other liabilities, cannot be calculated with sufficient reliability due to the absence of a current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments and therefore, are not reported apart of this disclosure.

In the opinion of management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values, since they are either short-term in nature or, in the case of customer advances, deposits, and certain long-term borrowings, are frequently repriced.

All assets and liabilities for which fair value is measured or disclosed in these unconsolidated financial statements are categorized within the following fair value hierarchy, based on the lowest level input that is significant to the fair value measurement.

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: Fair value measurements using inputs that are not based on observable market data

36.1 Fair value of financial and non-financial assets

The table below analyses the financial and non-financial assets carried at fair values, by valuation methods. For financial assets, the Bank essentially carries its investments in debt and equity securities at fair values. Valuation of investments is carried out as per guidelines specified by the SBP.
